

Cassandra Marshall, MPS

San Rafael, CA

Front-End Engineer

Multifaceted technical career with 10-year track record of innovation and success

Highly dedicated professional with over 10 years of experience in planning and development of web sites, frameworks, and multiple major projects. Proven history of building, guiding and retaining high-performance teams to develop and implement strategies for accelerated growth. Consistently improve delivery and service levels and possess excellent designing and layout skills with ability to discover, learn and apply software and technologies as needed to successfully complete projects.

PROFESSIONAL EXPERIENCE

Web Developer (3/2018 – Current)

COMPUTERSHARE, San Rafael, CA

Web Developer for ASP.NET MVC framework. Worked with templates to update and publish microsites for the company's Securities division. Assembled document on Best Practices, ADA Compliance and Performance metrics.

Key Achievements:

- Successfully launched 11 sites with only a brief tutorial, wrote a detailed document on the procedure.
- Contributed to the Securities template adding functionality, comments and bug fixes.

Front-End Engineer (10/2015 – 8/2017)

WEBSIGHT DESIGN, Sausalito, CA

Acquired in-depth knowledge of HTML, JavaScript, CSS, jQuery and mobile first responsive web design to design web products that focused on usability and user experience. Held accountability for the translation of Photoshop design compositions into rich presentation layer experiences. Legacy support for the exiting sites.

Key Achievements:

- Utilized MVC framework to build and launch 20 websites whilst keeping up with evolving web standards and best practices for the development of websites.
- Created clean, maintainable, cross-browser compatible and full responsive code.
- Contributed to the base code by modifying some of the file structure and updating web components.

Front-End Web Developer (11/2014 – 7/2015)

STELTER, Remote

Identified and fixed front-end bugs including design bugs, JavaScript errors, layout issues, and responsive breakpoints problems. Facilitated non-profits to collect donations by redesigning the content for company products on microsites.

Key Achievement:

- Developed hundreds of microsites for non-profits to promote their campaigns or content and receive donations.
-
